

Double-high units work great for adult apparel, too!

Cool.

Display fixtures just for kids' stuff!

We think you'll like NEWOOD's new *elite_kids* 2- & 4-Ways and Gondolas, too!

Why fixtures for kids' clothing?

T

he latest line of fixtures from NEWOOD was designed to fill a need. They are the first fixtures manufactured especially for merchandising children's clothing. Made from highly finished Maple or Oak, these displays will either be an upgrade for most stores, or can become a "signature" department in your store.

The Single-high fixtures are 48" tall and the Double-high are 65" tall. Both are available in either 32" or 48" wide. Double-high hanging provides added space for a higher volume of garments per foot of floor area.

The Tee Stands, 4-Ways and Gondolas all ship knock down (KD) making easy handling and affordable shipping (2- & 4-Ways ship UPS!). Our KD children's fixture line is also easy to assemble and easily moved once fully assembled. Our faceouts are interchangeable, so they fit any of the designs shown. You have the option of choosing all wood or chrome accessories, or mixing and matching wood and chrome if you like! You can select a clear lacquer finish or stained. Our unique method of attaching the faceouts to the frames provides extra strong support for even heavy loading while maintaining a clean, streamlined appearance.

NEWOOD Display Fixture Mfg. Co. has been designing and manufacturing wood fixtures for over 30 years. We have a 200 plus page catalog filled with floor fixtures, wall systems and cash wraps that fit a huge range of store types.

Visit our website at www.newood.com and request a free catalog of our fixtures. To see our displays installed in a variety of stores, go to www.newood.com/storephotos.htm. *And, as always, there is never a minimum order requirement, and we will help layout your store using our fixtures at no charge. Cool!*
